## HIGHLIGHT LAST UPDATE 09/24 (26/11/24)

### NEW APPLICATIONS SCANIA P 500

**OL1526**

#### SCANIA P 500

The SCANIA P500 is a versatile and powerful truck, ideal for regional and construction applications. Equipped with a 13-liter engine delivering 500 HP, it combines high performance with optimized fuel consumption. The P-series cab offers a practical and comfortable environment, featuring intuitive controls and excellent visibility. Safety and reliability complete the characteristics of this vehicle, designed to efficiently tackle the daily challenges of transportation.

### NEW APPLICATIONS ALFA ROMEO GIULIA

**OL2230E**

#### ALFA ROMEO GIULIA

The ALFA ROMEO Giulia is a sporty sedan that combines Italian elegance with dynamic performance. Equipped with powerful and responsive engines, it offers an exciting driving experience, enhanced by rear-wheel drive and perfect balance. The refined design is paired with meticulously crafted interiors, featuring high-quality materials and cutting-edge technologies for comfort and connectivity. Advanced safety features and driver assistance systems complete a model that embodies the spirit of Alfa Romeo: passion, style, and performance.

### NEW APPLICATIONS IVECO STRALIS II

**AT175**

#### IVECO STRALIS II

The IVECO Stralis II is a truck designed for long-haul transport, combining reliability, efficiency, and comfort. The powerful and optimized engines ensure high performance with reduced fuel consumption and a lower environmental impact. The ergonomic cab offers ample space, intuitive controls, and advanced technologies for connectivity and safety, making it ideal for efficiently meeting the demands of modern transportation.
